- The above recommended steps may not be applicable where you have current or prior year carried forward capital losses. If you have any other capital losses or gains, we recommend that you seek professional taxation advice on how to complete your tax return for capital gains.

### C. AMIT cost base adjustment (Item 7)

Under the AMIT rules, you will either have an AMIT cost base net increase or net decrease amount to the CGT cost base or reduced cost base of your securities. For the current year, there is an AMIT cost base net decrease amount. As a result, you are required to reduce the CGT cost base or reduced cost base of your securities by the amount shown at this item.

If the AMIT cost base net decrease amount exceeds the CGT cost base of your securities, your CGT cost base is reduced to nil, and any additional AMIT cost base net decrease amount will give rise to a capital gain. This gain may be reduced by the applicable CGT discount percentage if you have held your securities for 12 months or more.

If you sell your securities, your capital gain or loss should be calculated by subtracting from your sale proceeds your cost base or reduced cost base. The cost base or reduced cost base of your securities should be reduced by the total Tax Deferred Income amounts and AMIT cost base net decrease amounts and increased by the total AMIT cost base net increase amounts received by you.

## Have you sold your investment?

If you sold any of your stapled securities in Vicinity Centres during the year ended 30 June 2021, you may have made a capital gain or loss. You will need to obtain a copy of the booklet 'Personal investors guide to capital gains tax 2021' from the ATO to assist in calculating your gain or loss.

You should be aware that the information contained in your 2021 AMMA Tax Statement does not include any capital gains or losses that you may have realised relating to a disposal of your stapled securities in Vicinity Centres during the year ended 30 June 2021.
